NEW TOMATO-BO-KAY

See Description on Next Page

WHOLESALE and RETAIL

ANDREWS-BURRI SEED CO.

505 Walnut St. Kansas City, Mo.

OUTSTANDING TOMATOES

BO-KAY (100 Days)

BO-KAY (100 days)—We are sincere in our belief that this tomato is an outstanding main crop variety. It is wilt-resistant, and trials show it to be almost free from check or cracks. It is a very heavy cropper, and is large and smooth with dark red color inside and out. Its strong, heavy foliage makes it a valuable variety for planting on light soil. Also good for greenhouse forcing and staked or field growing.

SUPER BREAK O'DAY

SUPER BREAK O'DAY—This new Break O'Day must not be confused with the older type, as it has all the good qualities of the old with much more added. The vine has larger stems than the Break O'Day, and the leaflets are much larger and more abundant. The vines stand up better than the Break O'Day and the additional foliage protects the fruit from sun scald. The fruits are globe shaped with no flat sides. Is as large as the Break O'Day with better outside color. The internal structure is very solid and meaty, and is a much darker red color than the older type. Ten to fifteen tons of fruit per acre is not an unusual yield for this variety. The crop matures about the same time as the old Break O'Day, which is about 68 days from setting plants desirable as field stake or for greenhouse growing.

SUPER PURPLE KING (100 Days)

SUPER PURPLE KING (100 days)—A second-early, smooth, pink-fruited variety. It is very similar to Globe. Fruits are globe-shaped, high-crowned, medium sized, and perfectly smooth; very solid and meaty, and has a thick skin. They set in clusters of from 5 to 7. Vines make a good growth and have rather heavy-cut foliage. Unsurpassed by any other shipping variety. Should be staked. Vines long, somewhat resistant to wilt.

KING OF THE STAKERS

A Many-Purpose Variety, Extra Early and Smooth Medium Large

Fruits are large, smooth, globe-shaped, bright scarlet and unusually free from cracks. Highly resistant to fusarium wilt. Very productive. We recommend it as a staked or unstaked tomato for fields in sections where tomatoes are subject to sun-scald. As early as Earliana. Has normal vine coverage. Also very satisfactory as a greenhouse tomato, one grower reporting a 25% heavier yield than four other varieties.

We can supply Stokes Valiant and Stokesdale in the originator's sealed containers.

Important Ordering Suggestions

By Carefully Following These Suggestions Many Mistakes May Be Avoided

AND BETTER SERVICE CAN BE GIVEN

FREE TRANSPORTATION

All seeds quoted herein are shipped anywhere in the United States proper by Parcel Post, Express or Freight, our option, all **transportation and packing charges paid by us** excepting **Peas, Beans and Corn** which we cannot ship paid beyond the 4th Parcel Post zone unless accompanied with other seed. Large bulk orders which may include Peas, Beans and Corn will be shipped to your nearest express or freight office, transportation paid. **C. O. D.** and **money order return fees** are not considered as transportation charges and, therefore, must be paid for by the customer.

TERMS OF SALE

While our regular terms are cash with order we are pleased to offer open account to gardeners of established credit or who can furnish us with satisfactory business references; at least three established business concerns that have extended credit to you or who know you through past business dealings. (Names of friends, neighbors, relatives, etc., are not sufficient to establish credit relations.)

HOW TO MAKE REMITTANCES

Remittances may be made at our risk by any of the following methods: (1st and best) Post Office Order; (2nd) Bank Draft or check; (3rd) Express Company Money Order; (4th) Registered Letter. Cash or stamps are sent at purchaser's risk; however, the Postal Department asks us to discourage the use of stamps.

ORDER BLANK AND ENVELOPE

An order blank and envelope are inclosed for your convenience. We suggest you print your name and address. If you wish to reorder and have no order blank send it to us on plain paper. It will receive the same prompt consideration. Additional order blanks will gladly be sent on request.

SHIPPING INSTRUCTIONS

When goods are to be shipped by Freight or Express, give plain shipping directions; otherwise we use our best judgment in routing. Goods on which we pay transportation are shipped at our option.

LARGE ORDERS

Institutions, Gardeners or Florists wishing larger quantities than quoted are requested to send in list for quotation which will be returned promptly with lowest possible prices.

SPECIAL NOTICE—Andrews-Burri Seed Co. gives no warranty, express or implied, as to description, quality, productiveness or any other matter of seeds (Bulbs or Plants) it sells and will not be responsible for the crop. All sales subject to loss or damage by fire or other contingencies beyond our control.

YELLOWS RESISTANT STRAINS OF CABBAGE

Following 1900, crop failures became more frequent in cabbage growing sections of the Middle West. Even on land where the crop had been grown only a few times, growers were puzzled by the fact that plants turned yellow, leaves dropped off at stem and plants died in large numbers even with careful rotation of cabbage with other crops. Once this diseased condition appeared there seemed to be no effective cure or prevention by rotation, seed or soil treatment, and the only course left was to abandon such fields as "Cabbage sick." The varieties described below have proven their real worth in districts where it has been impossible to grow cabbage of more common varieties in the past few years.

YELLOWS EARLY RESISTANT GOLDEN ACRE, absolutely a new variety, which has been bred out of the Golden Acre, but has been entirely satisfactory in the last two years in many parts of the country. We have found it to be as early as the early strains of Copenhagen and yet as resistant as any of the other varieties of cabbage, which are bred with a thought of producing a crop on infested soils.

Our stock is limited on this variety and we would suggest that you place your orders early.

WISCONSIN ALL SEASONS—94 Days—A yellows resistant strain of All Seasons. Valuable in sections which are infested with cabbage yellows or wilt. Coarser plants than the original All Seasons. A good Winter keeper, producing large, flat, deep hard heads.

MARION MARKET OR NEW RESISTANT WISCONSIN COPENHAGEN—90 Days—This is a yellows resistant strain of Copenhagen Market. Plants large, coarse, not so uniform or early by ten days as the original Copenhagen, but have solid, crisp, tender, round heads. Will produce a crop when non-resistant strains fail.

YELLOWS RESISTANT BUGNER'S SHORT STEM, extremely popular wherever planted, our strain of seed is a production of the originator's stock seed. This variety produces large, semi-round heads. It is disease resistant and will take trifle more space to grow than other varieties, should not be set closer than 2½ by 3 feet.

WISCONSIN No. 8, a yellows resistant strain of the Danish Ballhead, desirable for growing in sections infected with this disease. Plants are somewhat larger, more leafy and spreading than the Ballhead, but heads are fully as firm, compact and long keeping.

DANISH BALLHEAD SHORT STEM; (Yellows Resistant) A desirable new strain which produces excellent crops on soil infested with cabbage "yellows." Keeps well, is of fine texture, and matures slightly earlier than Wisconsin No. 8.

GLOBE, a yellows resistant type of the well known Glory of Enkhuizen, having about the same size head as the Glory. The most popular of all the yellows resistant varieties. We sell more of Globe than all others.

EVERGREEN HOLLANDER—Latest introduction in the disease resistant cabbages. A fine strain of Hollander, heads well rounded, solid, and dark green color. More resistant to yellows than any other late varieties of cabbages.

WATERMELON

KANSAS KING—This is truly the king of all the watermelons with which we are acquainted. When its wonderful qualities are analyzed, the vote is usually 100 per cent. Foremost, it is large, often ranging 60 pounds; it is early. One grower from Minnesota reports a sale of 82 deliciously ripe melons averaging 28 pounds each, 79 days from planting, and we have yet to receive a report of a melon with a hollow center from any of the growers, whether large or small. It is oval or round in shape; distinctly striped; rich, red flesh, unexcelled in sweetness, with tan colored seeds.

KING BEE—This melon, since it was introduced by us six years ago, has met with sales but a little short of a revelation to our growers, as its fine qualities have enthused every watermelon lover who has become acquainted with its sugary, juicy, rich flavor. It is a smooth, round, oval-shaped melon with dark rind, and often weighing 50 pounds. Its tough rind makes a very desirable shipping melon. It is a few days earlier than the Stone Mountain, has a vigorous vine and is a heavy yielder; free from hollow center when ripe, seeds are white.

4th OF JULY — The earliest melon of which we are acquainted, as the following description will show. It is seemingly of Russian origin and first offered to American growers by the Minnesota State Experiment Station. We make no claims for its development or origin.

A watermelon that ripens as early as nine or ten weeks from planting—that is remarkably sweet and high in quality—that possesses great market appeal—is among the newer introductions by the Minnesota Experiment Station.

MOUNTAIN HOOSIER — One of the new varieties of Stone Mountain type, only darker rind, red meat and more uniform. Not so rough. White seed, 35 to 60 pounds. Good shipper and lots of merit.

FLORIDA GIANT, OKLAHOMA CHIEF or CLARA LEE—A large, round melon with a black-green, shiny, glossy rind. Has no stripe, just solid, smooth black-green. Its flesh is blood red, tender and very sweet. Grayish black seeds that are rather large. Melons almost as large as Jumbo Triumph, many as large as 70 and 80 pounds, and under very favorable conditions they will grow to 100 pounds. The rind is very thin and tough and they can be hauled without damage any distance that any melon can be hauled. They are hardy and resist drouth better than any except Kansas King. They ripen along with Tom Watson and other mid-season melons.

WATERMELON

SMOKY JOE—90 Days—There are many long varieties of melons, but only one Smoky Joe. A watermelon of enormous size and of the finest shipping quality. The giant melons often measure 28 inches long and 18 inches in diameter and weigh 60 to 80 pounds each. The color is an attractive dark green. The rind is medium thick, enough to insure long keeping, and the withstanding of rough handling during shipping. The meat is an appealing rich red and is delicious and sweet. It is entirely free from hard centers and stringy flesh, and when fully ripe will slice half an inch thick and not break. The Smoky Joe is our own development and introduction, a crossing of the famous quality melons, Kleckley Sweet and Tom Watson. Smoky Joe has blunt ends and more free from necks than any other melon we know of.

(Wilt Resistant)

STATE FAIR—This is a wilt resistant Stone Mountain, round in shape, having the same color rind as its parent, and bred for resistance to wilt, a common disease in so many sections the past two or three years. The flesh is deep red, firm and solid of heart; an unusually early solid melon, many attain a weight of 40 pounds; fine for roadside and store trade. **Lb. $1.25; 5 lbs., $5.00; 10 lbs. $8.50.**

KLECKLEY'S SWEET, No. 6—This wilt-resistant melon is better quality than Kleckley's Sweet. Long dark green, almost free from necks; good shape, red meat, white seed, medium early. Average weight up to 35 pounds; about 85% wilt-resistant; one of the best varieties for wilt infested soil. **Lb., $1.25; 5 lbs., $5.00; 10 lbs., $8.50.**

CANTALOUPE

HALE'S BEST No. 36—85 Days—A beautiful melon; highly flavored, really good to eat. Has proven its worth by becoming the most popular cantaloupe with large shippers the past several seasons. So wonderfully uniform that it is an outstanding breeding accomplishment. It is large, packing mostly 36's or using the Jumbo flat crate 12's. Solidly netted, little if any suture and no ribs. The rich, spicy salmon flesh is deep, fine grained and holds up well for long-distance shipping. While primarily bred for the shipping trade, its many fine qualities make it ideal for roadside market and home gardens. We recommend this melon to melon growers; for north—where the seasons are short—for south to be first on the market with a real good cantaloupe.

HARD-SHELL GOLDEN OSAGE—A new and excellent flavored melon on the order of Bender's Surprise in general appearance. It is valuable, especially for its hard shell which makes it fine for marketing, as they will stand up better than most varieties. Deeply ribbed, covered with a grayish yellow rope-like netting except for the distinct stripes. Skin is a beautiful yellow, flesh is medium in grain, red salmon in color, and sweet, tasty flavor. Weight about 6 to 7 pounds.

PEAS

WESTERN GIANT—This truly is a giant podded pea of recent introduction. Its mammoth long, dark, green pods, 5½ to 6 inches long, are slightly curved, the vines about 26 inches high, produce a bountiful crop about 73 days from planting. Unlike many varieties of its season, the quality is rich in flavor and will remain tender and sweet several days after picking.

LITTLE MARVEL—62 Days—Vine strong and vigorous, about 18 inches tall. Showy pods about 3 to 3½ inches long with a blunt end containing 7 or 8 Peas. Seed large, green, wrinkled. A very fine productive, dwarf, sturdy variety. Popular with the home gardener and in some sections planted largely by market gardeners.

LAXTON'S PROGRESS — A new variety of great merit and popularity. The pods are large, 4 to 4¼ inches long, and of a fine dark green color. Vines grow only 18 to 20 inches high, and bear a heavy crop of handsome pods. Being one of the earliest of the sweet wrinkled sorts, Laxton's Progress is in great demand everywhere. Matures in about 55 to 58 days.

WORLD'S RECORD — 56 Days — Seed wrinkled, large, cream and green color. Pods are pointed, about 4 inches long, and broad. An early type of the celebrated Gradus, very frequently used as an early Gradus. Height of vine 24 to 30 inches, light green. Fine showy single pods, with 7 or 8 Peas in each. Vines medium heavy. A wonderful, early Pea for market and home gardener.

ALDERMAN—Dark Podded. A handsome large podded variety of the Telephone family. Excellent for home garden, for truckers, for shipping to distant markets and for freezing; resistant to Fusarium wilt. Vine dark green, coarse. Pods single, very broad, plump, straight, dark green, pointed; contain 8 to 10 peas of highest quality. Seed large wrinkled, light green. This variety can well be considered the standard of high quality.

HUNDREDFOLD—This is, without doubt, the very best dwarf pea ever grown. It is the best flavored and the largest podded dwarf-growing sort in existence. It is ready about three days after the earliest sorts, and bears an enormous crop of handsome, intensely dark green, fairly broad and pointed pods, 4 inches long, containing about 8 large, dark green peas of excellent quality. The vines are 16 inches high, sturdy, and resist heat well.

THOMAS LAXTON—Dark Podded. Days to maturity, 73. A variety having been originated in England by Mr. Thomas Laxton, of Bedford, a noted English horticulturist. This pea is hardy and slightly earlier than Gradus and a more abundant yielder. The pods resemble Gradus in shape, excepting that they are blunt ended. They will attain a length of four and one-quarter inches. They are straight, inclined toward roundness and are well filled. The vines will grow to a height of thirty inches.

CAULIFLOWER

WHITE MOUNTAIN—because of its unusual qualities and resistance has displaced nearly all of the other varieties where in competition. A strong growing variety of the snowball type, produces larger and deeper heads and with no unusual growing hindrances will make very ample foliage with overlapping leaves over the head as a protection to the snow white heads in its forming. It is short stemmed and is not as "leggy" as many other types, matures with great uniformity and when tied comes on very rapidly and for this reason we advise the planter to transplant in the field in such quantities as he can handle to the best marketable advantage.

Nearly 100 per cent of White Mountain can be harvested within four months after sowing the seed. The white heads are great depth and pure white in color, it is very rare green leaves appear in the head. Five years' experience prompts us to say that White Mountain will produce 25 to 30 per cent more number one marketable heads than most other varieties. White Mountain is in a class of its own and our statements are backed by the reports of our customers in Colorado, Michigan, Minnesota, Iowa and Illinois.

SWEET CORN

GOLDEN CROSS BANTAM—4 to 8 days later than Golden Bantam, stalks average 6½ to 7 feet, are sturdy and straight, and under favorable conditions two ears are usually produced on each stalk. The ears are about 8 inches long, 10 to 14 rowed, with tightly wrapped husk, which makes it resistant to ear worms. Resistant to "Stewart's disease," very uniform ears.

FIRST EARLY—GOLDEN EARLY MARKET — This is the earliest large, golden Sweet Corn, earlier and larger than Golden Sunshine and 2 weeks earlier than Golden Bantam. The large ears are tightly filled with large, sweet kernels of exceptional flavor. This will bring the best early market prices. Stalks 5 to 6 feet high, ears 7 to 8 inches long, are 12 to 14-rowed.

CUCUMBER

Our Wonderful

OUR WONDERFUL—Beautiful in appearance, of dark bluish green color. Suitable for both the garden and forcing. A healthy, productive and fairly early variety, the fruits averaging 14 inches in length by 2½ inches in diameter and are very symmetrical. An ideal Cucumber for the market grower.

WONDER GREEN—10 in. long. A beautifully long, slender, dark green cucumber commanding a premium on the critical market, exceedingly popular because of excellent shape and intense dark color which is maintained longer than in any other variety. Fruit tapering at stem end, vigorous, productive, resistant to unfavorable growing conditions. Seeds are few.

DOUBLE YIELD—Enormous Yields of the Finest Pickles. Increasingly popular among growers because of the enormous yield of fine straight pickles. The young cucumbers are produced in clusters.

The cucumbers are very straight with blunt ends, medium deep green in color and the very best shape for pickles. The earliest variety we know, enabling growers to plant late and get a large yield.

STRAIGHT-8—62 days. This outstanding variety produces symmetrical, cylindrical fruits about eight inches in length and about 1½ inches in diameter. Fruits well rounded at ends, deep green when ready for use, and free from striping. An ideal shipping cucumber.

LETTUCE

IMPERIAL No. 847—A new black-seeded strain of New York which may prove to be better than New York No. 12. The large-framed plants have large, rounded medium green heads with abundant wrapper leaves. This strain shows high resistance to brown blight and tip-burn. Specially recommended for summer production, as well as spring and fall. Later than New York No. 12 but stands longer.

NEW YORK No. 12—An even, well-bred early strain which does well right up to July. The plant is large with solid, slightly flattened, Cabbage-like heads, well blanched, crisp and sweet. Its broad outer leaves are crumpled and fairly blistered, notched and slightly curled at the edges. The color is a trifle lighter than the very dark green of other strains. It is very fine for shipping.

NEW YORK No. 515—This is another early maturing strain but its most outstanding feature is its sure heading ability. Each plant makes a big, solid head, slightly darker than No. 12 and rounder. It stands fairly long without bolting.

RADISH

BRIGHT SCARLET GLOBE SPECIAL GREENHOUSE STOCK (Transplanted Stock)—We offered a Special Greenhouse Stock of Scarlet Globe Radish a few years ago which has made many friends. Last year we offered an improved stock of this type. In addition to an earlier maturity, this strain is much improved in color, which is a rich brilliant scarlet, approaching the Saxa color. Its main advantage is **the unsurpassed quality.** Crisp as no other radish, thin-skinned and **much longer standing** before becoming pithy. This improved strain is one of our new introductions of "Quality Radishes."

RADISH

RESELECTED SCARLET GLOBE, No. 509, European Grown—From carefully selected transplanted roots. A perfect strain, result of individual plant selection. Surprisingly uniform, color brightest scarlet, shape perfect, well-rounded bottom, with thin tap-root. Tops are of medium size and uniform. Flesh pure white, crisp and of fine flavor. It remains very long in prime condition. Fine for market.

SCARLET GLOBE, SPECIAL OUTDOOR STRAIN (with more tops)—The past few years we have had an increasing demand, especially from growers of the Norfolk, Va., section, for a Scarlet Globe Radish which will produce somewhat larger tops than our regular Reselected Scarlet Globe. It sometimes occurs that the tops of the latter variety when sown outside remain too short so that they do not bunch well. This demand has prompted us to select a strain with somewhat larger tops and we are glad to be able to offer it to the trade now. This radish differs from our Reselected strain only in the length of tops, as for the rest it is quite as perfect in every respect. It is unsurpassed for outdoors truckers' work.

CRIMSON GIANT, Improved—A nearly globe-shaped Radish, very large, and remaining in good condition a remarkably long time for a midseason variety. Skin is fine crimson, and flesh pure white and of excellent quality. It matures very quickly and is tender and crisp. A fine sort for open-ground successive sowing.

ICICLE MUCK-SOIL STRAIN—This is a very highly selected strain and excels all others we have ever observed. The roots are remarkably uniform and perfectly shaped. The tops in this strain are short and compact but when grown on muck soil they reach just the ideal size for easy bunching and basketing.

Flower Seeds

ASTERS

American Branching—(Also known as Vick's Branching)—We recommend the American Branching type highly. Very free blooming, producing flowers of broad-petaled type, slightly incurved and very lasting. Handsome double flowers borne on long stems, free brancher and unsurpassed in merit. 24 inches tall. Wilt resistant.

Crimson.....Pkt., 10c; ¼ oz., 50c; oz., $1.50
Lavender or Dark Blue.....Pkt., 10c; ¼ oz., 50c; oz., 1.50

AGERATUM

Blue Perfection—Compact, very large flowered variety. The darkest sort grown from seed.....¼ oz., 20c

ALYSSUM—Makes a very pretty border; fine for carpet bedding. Blooms June to November. Sow where wanted to bloom.

Carpet of Snow—Very suitable for border and pot work. 4 inches.....Pkt., 10c; ¼ oz., 25c; ½ oz., 40c; oz., 65c
Little Gem.....Pkt., 10c; ¼ oz., 25c; ½ oz., 40c; oz., 65c

ANTIRRHINUM (Snapdragon)—An exquisite tender perennial, living for a second and third year, but best treated as an annual, blooming in July if sown early and then on until killed by frost. By cutting off most of the flowering stems and giving a slight protection over winter, plants will bloom second summer for four months.

Majus Golden King, 2 ft. ..... Pkt., 10c; ¼ oz., 60c
Majus Scarlet Cardinal, 2 ft. ..... Pkt., 10c; ¼ oz., 60c
Majus Queen Victoria—White, 2 ft. ..... Pkt., 10c; ¼ oz., 60c
Majus Harmony—Terra Cotta Orange, 2 ft. ..... Pkt., 10c; ¼ oz., 60c
Majus Rose Queen, 2 ft. ..... Pkt., 10c; ¼ oz., 60c
Majus Mixed, 2 ft., Pink, Red, Rose, Yellow Scarlet. Pkt., 10c; ¼ oz., 60c

AQUILEGIA (Columbine)—Among the most beautiful of hardy perennial old-fashioned flowers. Blooms in early spring and summer for 60 days. Foliage very attractive. Will thrive anywhere, but prefers partial shade and moisture. Splendid for cutting. 2½-3 feet.

Long Spurred Silver Queen. ..... Pkt., 25c; ⅛ oz., 75c
Long Spurred Pink Shades ..... Pkt., 25c; ⅛ oz., 75c
Long Spurred Blue Shades ..... Pkt., 25c; ⅛ oz., 75c
Improved Varieties—Mixed. ..... ½ oz., 65c

ACROCLINIUM (Everlasting)—Semi-double, Daisy-like flowers about 1 inch across, with strawy petals of silky appearance; bright yellow centers. 15 inches. White and pink... Pkt., 10c; ¼ oz., 25c; ½ oz., 40c

BALSAM (Lady's Slipper)—A tender annual preferring partial shade. Flowers both single and double, in bright colors and variations are wax-like and very attractive. The individual blossoms floating in a dish of water exhibit beauty to best advantage.

Improved Double Camelia Flowered—In its extraordinary size, perfect form and brilliant colors, this fine strain of balsam surpasses all others. Height 18 inches. ..... ¼ oz., 20c; oz., 60c

Double Bush Flowering (New)—Compact dwarf plant with the blossoms at the ends of the stems so that they are not hidden by the foliage. ..... ¼ oz., 65c; ½ oz., $1.15; oz., $2.00

CALENDULA

Campfire or Sensation—Enormous; brilliant orange with a scarlet sheen and a full yellow center. Our strain of this variety is unusually fine and enjoys a large demand.
Pkt., 10c; oz., 50c; ¼ lb., $1.50; lb., $5.00

(New) Orange Shaggy—Winner of Gold Medal in "All America" competition in 1935. Fringed and laciniated petals of deep orange. ..... oz., 35c; ¼ lb., $1.25; lb., $4.00

Orange King, Double—The best bright orange. ..... Pkt., 10c; oz., 25c

Lemon Queen, Double—Good clear lemon. ..... Pkt., 10c; oz., 25c

CAMPANULA or CANTERBURY BELLS—The Canterbury Bells are a large genus of showy plants, blooming in profusion. Easy of culture; succeeds well in good soil. Blooms second year. 2-3 feet.

Calycanthema (Cup-and-Saucer) Mixed—Large cup-shaped bells, surrounded by a calyx resembling a saucer, and giving effect of being double. ..... Pkt., 10c; ⅛ oz., 25c

Medium Single Mixed—Large hanging bell-like flowers, in shades of blue, pink and white. ..... Pkt., 10c; ½ oz., 50c

CANDYTUFT (Annual)—These well-known favorites are among the most beautiful of our annual flowers. The seeds can be sown at all seasons or in Fall for early flowering. They like rich soil and plenty of room to flower freely. Very pretty in masses. Bloom in 60 days. 1 foot. Does not transplant readily.

Umbellata Mixed . . . . . Pkt., 10c; oz., 35c

PERENNIAL CANDYTUFT

Iberis Gibraltarica—Of spreading habit and covered with flat clusters of lilac flowers, shading to white at center. Tops die in winter, but new growth appears early the following season. Excellent for rock gardens or edgings. 8 inches. Blooms second year. Pkt., 10c; ¼ oz., 25c

Iberis Sempervirens—Perennial white for rock and open gardens. 8 inches. Blooms second year . . . . . Pkt., 15c; ¼ oz., 30c

CENTAUREA—The Centaurea is particularly well adapted for border work, and is also of value for cutting. Sow where wanted to bloom, as seedings do not transplant readily. Very easy to grow.

Cyanus, Double Blue (Cornflower) . . . . . Pkt., 10c; ½ oz., 30c

Cyanus, Double Crimson . . . . . Pkt., 10c; ½ oz., 30c

Imperialis, Mixed (Sweet Sultan)—Larger than usual Centaureas; colors, blue, white, pink and yellow. 18 to 24 in. . Pkt., 10c; ¼ oz., 20c

Candidissima (Dusty Miller)—Foliage finely cut and of silvery-gray color. For bedding and borders only . . . . . Pkt., 10c; ¼ oz., 30c

CYPRESS VINE (Ipomoea quamoclit)—Among the most beautiful of running and twining vines, blooming from midsummer until frost.

Quamoclit Mixed—White and crimson. Lilac-like foliage climbing 8 feet. . . . . Pkt., 10c; ½ oz., 20c

COREOPSIS

Lanceolata California Sunbeam—2-3 feet. Single . . . . . Pkt., 10c

Double Sunburst—Beautiful fully double flowers, 2 inches across. Comes 80% true from seed, and is a welcome change from the single type. . . . . ¼ oz., 35c; ½ oz., 60c

COSMOS

Extra Early Mammoth Mixed . . . . . Pkt., 10c; ½ oz., 20c

Late Mammoth Mixed . . . . . Pkt., 10c; ½ oz., 20c

Extra Early Double Crested Mixed. 50% double . . . Pkt., 10c; ¼ oz., 60c

DAHLIA (Seeds Only)

Hybrid Show Double Mixed—An exceptional mixture of really fine seed, saved from prize-winning plants . . . . . Pkt., 10c; ¼ oz., 35c

Finest Single Mixed—Will produce brilliant flowers running through a wide range of striking colors. Fine for cutting. Pkt., 10c; ¼ oz., 35c

DIANTHUS

Heddewigi Double Mixed (Japan Pink)—Very showy and fragrant. Flowers 2 to 2½ inches, resembling a carnation, many beautifully striped and mottled. 10 inches . . . . . Pkt., 10c; ½ oz., 30c

Heddewigi Single Mixed (Japan Pink) . . . . . Pkt., 10c; ½ oz., 25c

Annual Sweet William (Sweet Wivelsfield)—A very desirable type of single flower (Dianthus Hybridus), with a Sweet William-like growth. Flowers, however, are much larger and brighter, and more unusually marked and flaked. Blooms first year. Mixed . . . . Pkt., 10c; ¼ oz., 35c

DAISY, DOUBLE (Bellis monstrosa)—The **English Daisy** is a dainty perennial Springtime plant. Fine for edging or border. Quite hardy in most situations, easy culture, requires shade. Flowers from April to June.

Improved Giant Double Pink.....Pkt., 10c; ⅛ oz., 35c
Improved Giant Double Red.....Pkt., 10c; ⅛ oz., 60c
Improved Giant Double Snowball.....Pkt., 10c; ⅛ oz., 35c
Improved Giant Double Choice Mixed.....¼ oz., 60c; oz., $2.25

DELPHINIUM—The **Delphiniums** are showy perennials. Very easy to cultivate and beautiful for borders. The foliage is dark green, much divided, throwing out to perfection the blossoms, which are terminal spikes of blue. Although hardy perennials, the plants will bloom the first Autumn if started early.

Belladonna Improved (Cliveden Beauty)—Clear Blue.
.....Pkt., 10c; ¼ oz., 60c; oz., $2.00
Bellamosum—Dark Blue.....Pkt., 10c; ¼ oz., 90c; oz., $3.00
Gold Medal Hybrids, Finest Mixed.....Pkt., 10c; ¼ oz., 45c

DIGITALIS (Foxglove)—Hardy perennials of easy culture, living for several years without care and having tall spikes of showy, curious-shaped flowers. Blooms second year. 3 feet.

New Shirley Giant Hybrid Mixed.....Pkt., 10c; ½ oz., 80c

DIDISCUS (Blue Lace Flower)

Coeruleus—Dainty lavender-blue flowers from June to October. Excellent for bedding, and makes a splendid cut-flower. Sow where wanted to bloom.....Pkt., 10c; ¼ oz., 35c

ESCHSCHOLTZIA—California Poppy.....Pkt., 10c; oz., 60c

FOUR O'CLOCK—Mixed.....Pkt., 10c; oz., 25c

GAILLARDIA—Grandiflora Mixed.....Pkt., 10c; oz., 75c

GERANIUM—Mixed.....Pkt., 10c; ¼ oz., $1.00

GOURDS—Dish Cloth.....Pkt., 10c; oz., 25c
Sugar Trough.....Pkt., 10c; oz., 25c
Hercules.....Pkt., 10c; oz., 25c
Egg Shape.....Pkt., 10c; oz., 25c
Giant Water Bottle.....Pkt., 10c; oz., 25c
Mixed.....Pkt., 10c; oz., 25c
Calabash.....Pkt., 10c; oz., 25c
Pear-shaped striped.....Pkt., 10c; oz., 25c
Turk's Turban, Ornamental.....Pkt., 10c; oz., 25c
Small Spoon.....Pkt., 10c; oz., 25c
Bicolor.....Pkt., 10c; oz., 25c
Warted Mixed Colors.....Pkt., 10c; oz., 25c
Horned Cucumber.....Pkt., 10c; oz., 25c

HELICHRYSUM MONSTROSUM
Strawflowers—Canary Yellow.....Pkt., 10c; oz., 75c
Fire Ball.....Pkt., 10c; oz., 75c
Rose Queen.....Pkt., 10c; oz., 75c
Gomphrena—Mixed.....Pkt., 10c; oz., 60c
Gypsophilia—Baby's Breath, Single.....Pkt., 10c; oz., 40c
Gypsophilia—Baby's Breath, Double.....Pkt., 10c; ¼ oz., $1.25

HELIOTROPE—Old-fashioned fragrant plant. Mixed.....Pkt., 10c

HOLLYHOCK—Single, Mixed.....Pkt., 10c; ½ oz., 35c
Double Mixed.....Pkt., 10c; ½ oz., 50c

LANTANA—Mixed.....Pkt., 10c; ½ oz., 45c

LOBELIA, Crystal Palace (Annual)—Height 6 in. Plants form compact little bushes covered with brilliant, deep blue flowers throughout the summer. Desirable for edgings, bedding and pot culture.
.....Pkt., 10c; oz., $2.50
Cambridge Blue.....Pkt., 10c; oz., 4.00

LUPINS, Hartwegi (Annual)—Height 2 ft. Plants are of robust branching habit with deeply cut dark foliage, and tall graceful spikes of pea-shaped flowers in delicate shades of blue, lavender, pink and white. Fine for cutting. If cut as they mature the plants will continue to bloom.....Pkt., 10c; oz., 75c

LARKSPUR, Tall Hyacinth Flowered—Bloom quickly from seed sown in the spring, and their graceful flower-spikes furnish the finest cut flowers from early summer to frost. Thrive best in sunny position.
Lilac, Light.....Oz., 90c; ¼ lb., $2.25
Pink.....Oz., 90c; ¼ lb., 2.25
Purple or Dark Blue.....Oz., 90c; ¼ lb., 2.25
White.....Oz., 90c; ¼ lb., 2.25
Finest Mixed.....Oz., 75c; ¼ lb., 2.00

MARIGOLD—When all other flowers are past their prime, Marigolds will still furnish a wealth of color. The dwarf varieties are ideal for bedding, while the taller types are valuable for cutting. Marigolds are shallow rooters, and apt to be blown about unless staked.

(New) Sweet-Scented Yellow Supreme—"All-America" Gold Medal for 1935. Is lemon-yellow counterpart of the famous Guinea Gold, and like it is carnation-flowered and 100% semi-double, but its flowers are even larger. After being in water 48-72 hours, it takes on an even more delightful color, and, if possible, a more graceful form. Deliciously sweet scented...Pkt., 10c; ¼ oz., 25c; oz., 70c; ¼ lb., $2.00

(New) Gigantea Sunset Giants—A new race with double flowers, 5-7 inches across, in shades of vivid orange, dark and light yellow and primrose. Sweet-scented, too. 35% will come single, but the excellence of the doubles will compensate for this. Long stems for cutting.....¼ oz., 40c; oz., $1.50; ¼ lb., $5.00

African Orange Ball—2½ feet.....¼ oz., 40c; oz., 1.25
African Lemon Ball—2½ feet.....¼ oz., 40c; oz., 1.25
African Tall Double Mixed—2½ feet.....¼ oz., 40c; oz., 1.25
French Dwarf Double—Orange. 10 inches.....¼ oz., 20c; oz., 60c
French Dwarf Double—Lemon. 10 inches.....¼ oz., 20c; oz., 60c

MEXICAN FIRE BUSH (Kochia Trichophylla).....Pkt., 10c

MOONVINE—White.....Pkt., 10c; oz., 35c

MORNING GLORY—Heavenly Blue.....Pkt., 10c; oz., 60c
Japanese.....Pkt., 10c; oz., 45c
Scarlett O'Hara.....Pkt., 15c; ¼ oz., 50c; oz., $1.50

MYOSOTIS (Forget-Me-Not).....Pkt., 10c; ¼ oz., 30c

PETUNIAS—For garden or house culture few plants equal the petunia in effectiveness. Beautiful and especially useful for borders, solid beds, window boxes, porch boxes and vases. They commence flowering early and continue a sheet of bloom throughout the whole season until killed by frost; easily cultivated, only requiring a fairly good soil and sunny position.

Giants of California Mixed—A well-balanced mixture containing a remarkably fine variety of colors, in blends of crimson, white, violet, lavender and pink. Large flowers freely produced. .....**Pkt., 25c; 1-16 oz., $3.00; ½ oz., $20.00**

Elk's Pride—Surpassing Purple Prince in size, is darkest velvety-purple single, and in much demand for modern gardens. Effective in combination with Dainty Lady. .**Pkt., 25c; 1-16 oz., $3.50; ⅛ oz., $6.00**

Balcony Petunias—Free-blooming, and trailing in growth, with single flowers 3 inches across. Suited for hanging-baskets and window and porch boxes. Very easily grown. Height 15 inches.

Balcony Blue—An outstanding variety with large flowers of a beautiful, clear violet-blue color. This is a very popular uniform strain. .....**Pkt., 15c; 1-16 oz., 45c; ⅛ oz., 80c; oz., $5.50**

Balcony Crimson, Rose, White, or Mixed—Each, **Pkt., 15c; 1-16 oz., 40c; ¼ oz., $1.00; oz., $3.50; ¼ lb., $12.00.**

Improved Rosy Morn—An improved strain of the long popular clear pink bedding variety. Of deeper coloring, more compact growth, and freer flowering than the older type, with the same white throat. .....**Pkt., 15c; ⅛ oz., 60c; ½ oz., $1.75; oz., $3.25**

Rose of Heaven—Rich brilliant rose, with inconspicuous white throat, darker than Rosy Morn. .**Pkt., 15c; ⅛ oz., 30c; ½ oz., $1.25; oz., $2.25**

Howard's Star Improved—Crimson-maroon with a clearly defined star of blushing white.....**Pkt., 15c; ¼ oz., 50c; ½ oz., 90c; oz., $1.50**

PANSY ENGELMAN GIANT—The world's largest pansy. These fine pansies are offered in sealed packets of ½ oz. or more.

Mixed—Mr. Engelman, a foremost British grower, has given us a strain of immense size (3-4 inches across) containing a wide range of colors both dark and light. Compact and early flowering. Awarded Banksian Medal. Originator's seed. **⅛ oz., $2.25; ¼ oz., $3.75; ½ oz., $6.50; oz., $12.00; ¼ lb., $40.00; ½ lb., $75.00.**

Ruggles Giant....**⅛ oz., $1.65; ¼ oz., $2.75; ½ oz., $4.50; oz., $8.00; ¼ lb., $30.00; ½ lb., $55.00.**

PHLOX DRUMMONDII—Dwarf—This type has the large individual blooms of the Grandiflora but the growth of the plant is compact and dwarf, attaining a height of 8 inches. Magnificent for parkings and low borders.

Nana Compacta Mixed.....**Pkt., 10c; ½ oz., $1.00**

Star Phlox—A dwarf variety bearing star-shaped blossoms in great abundance. . . . . .**Pkt., 10c; ½ oz., $1.00**

Perennial Mixed—The bright colored flowers make a pleasing border. Seed is slow in germinating and from fall sowings will often not show until following spring.

PORTULACA (Moss Rose)—Dwarf plants of spreading habit with fleshy stems and leaves, glossy, brilliantly colored, cup-shaped, single blooms or rose-shaped, double flowers, about 1 inch in diameter. Ideal for rock work or dry, sunny locations. Annual.

Double Mixed—Saved from the finest flowers only, and will produce a large percentage of doubles.....Pkt., 10c; ¼ oz., $1.00

Single Mixed—Large flowers.....Pkt., 10c; ¼ oz., 60c

PHYSALIS (Chinese Lantern Plant).....½ oz., 50c

POPPIES—Perennial Varieties—Hardy perennials of easy culture; in bright glowing colors.

Oriental—This is the most gorgeous perennial Poppy, flowering in June and July, with enormous blossoms often measuring 5 to 6 inches across, deep crimson, with a conspicuous black blotch on each petal. Transplanting should be done carefully. The best time to lift plants is in August.....Pkt., 10c; ⅛ oz., 20c

Iceland—Although hardy perennials, these dwarf Poppies bloom the first season from seed sown early in spring. Plants are of graceful neat habit with fern-like foliage producing their brilliant fragrant flowers in profusion, and if the seed pods are picked off, continue to flower all season. 1 foot. Mixed.....Pkt., 10c; ⅛ oz., 35c

American Legion—This new single Shirley is a dazzling orange scarlet of enormous size, borne on long, stout stems. The plants are very erect, robust growth.....Pkt., 10c; ¼ oz., 20c; oz., 35c

Double Carnation—Flowered—A magnificent fringed Poppy of dazzling richness and variety of colors.....Pkt., 10c; ¼ oz., 15c; oz., 40c

Shirley—Remarkably brilliant and free-flowering. Range from pale rose to deep crimson, delicately edged and fringed. Mixed colors. .....Pkt., 10c; ¼ oz., 15c; oz., 40c

Tulip—Single bright scarlet tulip-shaped flowers, a black spot appearing at base of petals. Hardy annual....Pkt., 10c; ¼ oz., 15c; oz., 50c

SALVIA or SCARLET SAGE—A half ounce should raise 1000 plants. Sow seed in hotbed or box in house and plant out when ground is warm, or sow outdoors when the Apple is in bloom. In bloom 60 days. Likes full sun. Will produce, when well-grown, 150-200 spikes to the plant.

Splendens (Scarlet Sage).....WRITE FOR PRICES

Bonfire or Clara Bedman—A fine variety, 24 inches high; forms a dense compact bush. Brilliant scarlet.....WRITE FOR PRICES

Farinacea "Blue Bedder"—2 feet. Perennial. Surmounting dense tufts of attractive foliage, rise spikes of light wedgewood-blue flowers. Blooms first year if started early. Flowers may be dried, and used as an everlasting.....¼ oz., 75c; ½ oz., $1.40; oz., $2.50

SCARLET RUNNER BEAN.....Lb., 50c

NASTURTIUM

Scarlet Gleam.....Pkt., 10c; oz., 25c
Golden Gleam.....Pkt., 10c; oz., 25c
Tall or Climbing.....Pkt., 10c; oz., 15c; 2 ozs., 25c; 1 lb., 75c
Dwarf Varieties—Finest Mixed..Pkt., 10c; oz., 15c; 2 ozs., 25c; 1 lb., 75c

ZINNIAS—DAHLIA FLOWERED—Large size, fullness of petals, fine color range, good keeping qualities have all contributed to the popularity of this strain. The flowers resemble in appearance the Decorative Dahlia and for this reason it is called the Dahlia Flowered Zinnia. When in full bloom they often measure 5-6 inches in diameter.

Canary Bird—Delicate primrose.....oz., 60c; ¼ lb., $1.50; lb., $5.50
Crimson Monarch—Bright crimson.....oz., 60c; ¼ lb., 1.50; lb., 5.50
Dream—Deep lavender purple.....oz., 60c; ¼ lb., 1.50; lb., 5.50
Exquisite—Bright rose with deeper center oz., 60c; ¼ lb., 1.50; lb., 5.50
Golden Dawn—Bright golden yellow.....oz., 60c; ¼ lb., 1.50; lb., 5.50
Illumination—Deep rose.....oz., 60c; ¼ lb., 1.50; lb., 5.50
Oriole—Orange and gold.....oz., 60c; ¼ lb., 1.50; lb., 5.50
Polar Bear—Pure white.....oz., 60c; ¼ oz., 1.50; lb., 5.50
Purple Prince—Fine deep purple.....oz., 60c; ¼ oz., 1.50; lb., 5.50

CALIFORNIA—(California Giant)—Enchantress—Light rose with deep rose center.....oz., 60c; ¼ lb., $1.50; lb., $5.50
Golden Queen—Golden yellow.....oz., 60c; ¼ lb., 1.50; lb., 5.50
Lavender Gem—Deep lavender purple...oz., 60c; ¼ lb., 1.50; lb., 5.50
Orange King—Rich orange overlaid with scarlet.....oz., 60c; ¼ lb., 1.50; lb., 5.50
Orange Queen—Attractive golden orange.oz., 60c; ¼ lb., 1.50; lb., 5.50
Purity—One of the best white Zinnias...oz., 60c; ¼ lb., 1.50; lb., 5.50
Rose Queen—Lovely shade of bright deep rose.....oz., 60c; ¼ lb., 1.50; lb., 5.50
Salmon Queen—Salmon rose.....oz., 60c; ¼ lb., 1.50; lb., 5.50
Scarlet Gem—Fine deep glowing scarlet..oz., 60c; ¼ lb., 1.50; lb., 5.50
Violet Queen—Exquisite deep purple....oz., 60c; ¼ lb., 1.50; lb., 5.50

FANTASY—Each flower is a mass of shaggy petals twisted and curled, of rounded shape, as different and as charming as can be. 24 inches. Double flowers; mixed colors.....oz., 70c; ¼ lb., $2.25

TOM THUMB—Plants only 4 to 6 inches high, compact, and covered with well formed flowers of the Lilliput type. The colors range through many shades, all mixed. Excellent for borders..oz., 70c; ¼ lb., $2.25

LILLIPUT—Handsome little bushes, 18 inches high, bristling with tiny medium-stemmed double flowers. Mixed colors...oz., 60c; ¼ lb., $1.50

RED RIDING HOOD—Covered all over with little round double bright scarlet flowers about an inch across. 12 in.....oz., 60c; ¼ lb., $1.50

SWEET PEAS

Late Giant Spencer Mixture—The varieties in this mixture have been selected to afford unusual richness and brilliancy of color. It contains the finest named sorts...Pkt., 10c; oz., 15c; ¼ lb., 35c; lb., $1.10

Early-flowering Mixture—This is the finest blend, giving a perfect balance of the various colorings..Pkt., 10c; oz., 25c; ¼ lb., 75c; lb., $2.75

THUNBERGIA—Alata—Mixed—Excellent for baskets or rock garden. .....¼ oz., 30c; ½ oz., 50c; oz., $1.00

VERBENA—Defiance Scarlet.....¼ oz., 25c; ½ oz., 45c; oz., 90c
Blue Shades.....¼ oz., 25c; ½ oz., 45c; oz., 90c
Pink.....¼ oz., 25c; ½ oz., 45c; oz., 90c

SWEET CORN HYBRIDS

EARLIGOLD

The newest Hybrid developed for critical market gardeners, who want earliness, ear size, wilt tolerance, and improved quality in a first early Hybrid. Earligold matures in 72 to 75 days, which is in season with Golden Hummer, Golden Sunshine and Golden Early Market. It produces 12-16 rowed ears, slightly tapering, well filled and 6½ to 7 inches long. Uniformity is one of its merits. The plants are sturdy, 5 to 5½ feet tall, with few suckers. In wilt-free sections production of marketable ears is 10% to 30% greater and in wilt-infested areas 10% to 60% greater than Golden Hummer, Golden Sunshine and Golden Early Market.

TENDERGOLD

A top cross of Purdue Bantam on Golden Sunshine, ears are cylindrical to slightly tapering, from 7 to 8 inches long. It has 10 to 14 rows of kernels of the high quality of Golden Bantam. It yields more than either Golden Bantam or Golden Sunshine and matures in 82 to 85 days, at about the same time as the Golden Bantam. It is very resistant to Stewart's disease, shows great uniformity of ears and produces a large percentage of two eared stalks.

MARCROSS C6.13

A 76-day early, yellow, wilt-resistant corn. The 7-inch to 8-inch ears are borne on sturdy, leafy stalks, 5 to 6 feet tall. The ears are slightly tapering, containing 12 to 14 rows of delicious golden kernels. The ears are well above the ground. This variety, like all hybrids, is a heavy producer, yielding 30 to 40% more marketable ears than most open pollenated types. Its uniformity in maturing is a great advantage to the market grower in the gathering.

GOLDEN CROSS BANTAM

4 to 8 days later than Golden Bantam. Stalks averaging 6½ to 7 feet, are sturdy and straight, and under favorable conditions two ears are usually produced on each stalk. The ears are about 8 in. long, 10 to 14 rowed, with tightly wrapped husk, which makes it resistant to ear worms. This hybrid is also noted for resistance to Stewart's disease and for the uniformity of its ears. Matures in 88 days.

Pride of the Market Pepper

Pride of the Market Pepper is of the California Wonder type but 10 to 12 days earlier. Its earliness and productiveness warrant it first place among the heavy-meated varieties. The plants are sturdy, upright and of medium size with dark green, abundant foliage and broad leaves that well protect the pods. There is possibly a smaller percentage of four lobe peppers than in the older California Wonder types.

The fruits are borne upright, of medium width and averaging 3 to 3½ inches in length. The color when young is an intense dark green, changing to a beautiful scarlet when ripe. The walls are very thick and the flesh entirely sweet, making it outstanding. Also excellent as an early red pepper where red peppers are in demand. As Pride of the Market is early in maturing with medium plants, it is especially suited to Northern growing conditions.

To any grower who wants a very early, thick fleshed, smooth, solid pepper, 90% blight-resistant, desirable for local, or hauling to distant markets, we recommend Pride of the Market.
